

OFFICE OF THE HEAD OF STATE
State of Hokoria

This is an official report of the Central Government of Hokoria's Office of the Head of State.

Title	Report regarding the Empire of Som
Date	14/May/2023
For	Public
Notes	*

Please see the next page for content.

This report has been written by the Office of the Head of State as the date of the Empire of Som's withdrawal from the conflict was nearly a month ago. These reports should be routine and aim at providing information for citizens, allies and others interested.

For security purposes, some details have been left out in compliance with the Act of National Security.

Following withdrawal

The Empire of Som's withdrawal was instantaneous as they failed to disrupt the State of Hokoria's operations. Som operatives joined the WeAreHokoria Discord community days after withdrawal, where they were met by Hokorian officials. The Order of Bog Soma prevented their access to the server and resulted in their bans.

In the interactions that took place, the operatives revealed that the Empire of Som's actions were largely fueled by the State of Hokoria's 'promotion of LGBT' (paraphrased) as well as small 'provocations' which included the April Fools' Day 'surrender of Hokoria'.

Intelligence gathering

The Empire of Som created a 'public Discord server' that supposedly aimed at forming relations with other states. The State of Hokoria gathered information of some accounts that are suspected to be Som operatives.

The 'public Discord server' was later deleted by the Empire of Som, suspectedly as a result of failed attempts to form relations.

Prevention

An account associated with the leader of the Empire of Som was later banned from the MicroWiki@Discord server, of which they were somewhat active on. The ban was a result of breaking Discord's Terms of Service regarding raiding.

The Empire of Som used the MicroWiki@Discord server as a way to find and join Discord servers to raid. It is known that they still have a presence in this server.

Recent activity

The Empire of Som has been seen to become more active on a public basis, joining the Discord servers of states. The State of Hokoria has provided these states with the necessary advice in order to prevent another series of raids on state servers. The Department of the Interior is aware of (and is actively monitoring) Som operatives in the WeAreHokoria@Discord server.

Risk

A	Empire of Som	
	Known aliases	Som, Bog Soma, United Provinces of Bog Soma, InterSom Union, Kingdom of Westspillen, Kingdom of the Two Lakes, Βοδσομα, Бог Сом, Эмпайр оф Сом
	Classification	Organisation/group
	Hokorian status	Blacklisted from the State of Hokroia
	Global status	Active
	The Empire of Som is an anti-Hokorian group that is not recognised as a state by the State of Hokoria. It is considered to be a structured and organised group.	
	Risk to Hokoria	Yes
	Risk to allies	Yes
	Risk to other states	Yes
	Their attack style is completely internet based mainly in the form of Discord server raids, the sending of viruses (and other malicious software) and public information vandalism (such as Wiki vandalism).	

A	B	C
High risk	Medium risk	Low risk
